

Dream comes true with house on four wheels

Did you hear about **motorhomes**? It's a wonderful option for those who loves trips in the wild. They are bulky cars where you can **travel** and **live** in. There are always a bed, kitchen and bathroom inside. You can go **everywhere** you want like in regular car and live like in a small flat. I decided to try it, so I rented a camper van and I went on three-day trip.

My new house on four wheels looks **wonderful** and **spacious**. It has a shape of a pepper. My camper van is huge, painted in glossy red colour. Its wheels look like **cucumber slices**. At the back of the car there's a big, bottle-green pepper peduncle. My pepper shaped car has many small windows, some of them have **colourful stained glass**. My favourites ones. The motorhome is **double-decker**. On the first floor there are driver's seat, little kitchen and bathroom. On the second floor you can see few beds and cozy living room. The **furniture** in all rooms is made of ebony wood. The rest of the items is in various different pepper colours - vivid orange, yellow and green - among others **cushions**, **stools** and **floor lamps**. In the living room there are a lot of colourful **books** in a little library. The floor of entire vehicle is made of ivory tiles. Bathroom is tiny, contains only a shower, sink, toilet and place to stand. I'm in love with this type of **interior design**.

To fully test my camper van, obviously I had to go on a trip. For this **weekend** I decided to go to two completely different places. On the first day I went to **a lake**. After three hours on the road, I got to this charming place. I parked on a **special place** for caravans, between water and pine forest. I went outside the car and sat on a log and started drawing beautiful **landscape** that I was admiring. All afternoon I spent

actively 25 meters from my four wheel home. Near the lake I made a meal in my little kitchen but I still enjoyed this beautiful view through the window. I ate typical home food such as dumplings with berries and a sandwich with cottage cheese and peppers. I had thought that cooking in that small room is harder, but the dishes I made were yummy. I chose a bed on a second floor and I fell asleep. Surprisingly I slept well in relatively huge, as for this type of house, bed. Next day, I woke up early and went out fishing without even moving my car. I caught two crucians and three salmons. I packed everything into my vehicle and drove to my next destination - to the seaside. It was sunny that day, so I took more difficult route. Even though the road was narrow and curvy I hadn't have issues with driving my automobile. When I arrived I took my deckchair out of the motorhome and went to sunbathe. As a dinner I prepared fried fishes and I made an avocado smoothie before sunset. I went to sleep and woke up in a good mood. The only sad thing was that I need to come back home... to the stationary one. I will never forget this amazing trip.

After three days I spent on this travel in my pepper motorhome, I can say that it was an awesome experience. It's great that you can go on a trip and take your home with you. With caravan you don't need to care about booking a hotel's room – you travel by it. The only thing that's important to you is to check where are camper parking places. But it's still a comfortable option for those who loves nature. If you prefer spending time in the wild by swimming, sunbathing or cycling over going on a walk and sightseeing, then travelling by camper van is perfect option for you. On the other hand, it also has a disadvantage – this type of cars can't go fast. That's why the trip can be long for you and your motorhome causes a traffic jam which may frustrate other drivers. In my humble opinion this is the best car type for vacations ever.

To conclude, I spent amazing time travelling by caravan. I didn't expect to be so comfortable. The most important pros of this kind of journeys is contact with nature, being close to your home and your favourite things. I think I'll rent this camper van very soon, I really liked its shape and this way of travelling. Everyone should try it, haven't you tried yet?
